O. P. FOGLE

Nurseryman and Fruit Grower

CAMBRIDGE, OHIO

PRICE LIST 1917

SMALL FRUIT PLANTS AND
OTHER NURSERY STOCK

Location $2\frac{1}{2}$ Miles Southeast of Cambridge, Ohio.

Near Stop 5, Interurban Line

Strawberries will grow in nearly all soils that produce good crops of corn or potatoes. Imperfect varieties must have perfect varieties near them for best results.

PERFECT VARIETIES

Aroma.	Pearl-
Chesapeake	Senator Dunlap.
Glenmary.	Early Jersey Giant.
Gov. Fort.	Late Jersey Giant.
Helen Davis	Joe Johnson.

IMPERFECT VARIETIES

Bubach.	Kellogg's Prize
Buster	Sample.

AROMA.—Very large, firm, solid berry. Late.

CHESAPEAKE.—This is one of the best. The plants are large and virorous, fruit is large and firm and of the very best quality. Medium to late.

GLENMARY.—Is one of the older varieties. Very much planted in most fruit sections as a market berry. Very large and bears big crops. Large, healthy plants. Season medium.

GOV. FORT.—This berry is very late and bears large crops of rather soft berries, but brings good prices on the markets. 30c doz. \$1.00 hundred.

HELEN DAVIS.—One of the newer varieties and also one of the best. Makes plenty of plants with healthy foliage and is a wonderful yielder. Commences to ripen early and makes a long season.

PEARL.—I have tried all of the latest berries and I find the Pearl is the very latest and best of the late varieties. The very largest berries, selling at 12½c per quart wholesale. I expect to plant more Pearl this coming spring than any other one variety.

SENATOR DUNLAP.—One of the best early varieties, bearing large crops of medium sized berries.

BUBACH.—Old well known sort, one of the best for home use and nearby markets. Large size, rather soft. Medium season.

SAMPLE.—The old standby. One of the best. Have but a few thousand plants to offer.

BUSTER.—The frost resister. This variety out yielded all other varieties nearly 2 to 1 on the Ohio Experiment Grounds the season of 1911. An excellent plant maker, filling the row with strong, healthy plants. The fruit ranges from medium to large and makes a long season.

Early Jersey Giant, Late Jersey Giant, Kelloggs Prize, Joe Johnson, these 4 varieties are of the largest size and good producers. It will pay you to try them.

RASPBERRIES

CUMBERLAND.—The largest black Raspberry known, has been well tested in all sections, giving thorough satisfaction.

PLUM FARMER.—The Plum Farmer is vigorous, healthy and productive. Early in ripening and matures its crop in a short time. Very fine and good flavor.

GREGG.—A vigorous grower and great yielder. Ripens later than Plum Farmer.

HAYMAKER.—Purple cap. Comes vigorous in growth, produces the largest crops of all. This Raspberry makes me more money than any other variety I have on the place.

ST. REGIS.—Everbearing red Raspberry. Bears a moderate supply of fine fruit from June till late in the fall.

Address all orders to

O. P. FOGLE

R. D. No. 7, Cambridge, Ohio

CLAIMS.—If any, must be made upon receipt of plants, when they will be carefully examined and, if just, all made satisfactory. I send out only good plants in good condition, carefully packed, but success or failure depends in so large a degree upon the care and management after received that I do not, because I can not, guarantee plants to live.

DISCOUNT.—A discount of 10 per cent, is allowed on all orders, provided remittance in full is sent with order.

CERTIFICATE OF NURSERY INSPECTION

No. 51.

Columbus, Ohio, August 2, 1916.
